## Experience

### Product Manager

#### Google Incorpoartion

Jan 2011 - Present

- Preparation of monthly financial and management account for the board of director of the company which must be ready within three working days into the new month.
- Monitoring the financial performance of the company's product and service in order to determine which product to invest more money on or the product to discontinue. Which was done excellently, despite been a young company, she is not having cash flow problem.
- Monitoring the financial performance of the company's product and service in order to determine which product to invest more money on or the product to discontinue. Which was done excellently, despite been a young company, she is not having cash flow problem.

### Lead Developer

#### Alabian Solutions Limited

Jun 2006 - July 2010
